

To all captains of AC Alumni teams,

Thank you for participating in this year's tournament and for taking the time and trouble to organize things for your team. Arrangements are coming along well, and we expect a fun weekend for all involved.

Attached is a schedule and rules sheet. Additional copies of these forms will be available on our website (www.adamscentral.org) very soon. In the meantime, I will e-mail an original copy of the schedule, so that you can forward it to your teammates if desired.

A few quick things to make you aware of.....

- The Booster Club will have a concession stand at Adams Central for the duration of the event. So if you're running short on time, keep us in mind for a spot to eat.
- Each player will receive a T-shirt this year. At check-in on Friday night, players will be given their T-shirt only after signing the necessary waiver.
- We were able to handle most of this year's communication via e-mail, which helped lower postage costs. Since part of the purpose of this event is to raise funds (the primary purpose is for alumni to gather and have fun), any time we can save some costs, that's a good thing. We have been able to build a pretty good database of e-mail addresses, but we'll also have a sheet available at each location for anyone who didn't receive the e-mails this year to add their e-mail address.
- We're also using our website more extensively, and will be trying to promote awareness to that during the tournament.

We are looking forward to the tournament. Rosters are set, although additions can still be made if necessary. We will be printing the roster sheets (for the fans, right?) next week, so any additions may not be listed there. On a similar note, it is now too late to request a refund for someone that can't make it. But at this point, shirts have been ordered, etc..... so if someone has to drop out, the only option is for them to find someone else to take their roster spot.

See you on Friday, March 21st. Check schedule for details.

Jeff & Lori Hodson
